Naval Office Shipping lists DO NOT survive for NC ports in the UK or at SANC

Naval Office Shipping Lists were created at the various British ports, starting quite early. So, I trawled through selections from the British Online Archives (subscription website) to identify select entries with North Carolina connections as summarized for select Virginia and Caribbean ports – either the ship was built in North Carolina, the ship traveled to or from an North Carolina port, etc. These non-North Carolina port entries help fill in the gaps for the missing North Carolina records. Marilyn Carney then abstracted the relevant records from image snippets that I provided her, and Hope Blackford then indexed them. This piece wouldn't exist without their help.
